BURNAM LEADS IN EXAMINATION GRADES

As Taken By Civil Service For Postmastership of Richmond—Ernest Backs Him

Washington, D. C., Mar. 28.—Announcement has been made by the Civil Service Commission of the grades made in examination of applicants for appointment as postmaster of Richmond, Kentucky. The grades of the only ones who took the examination are as follows:

Robert R. Burnam, Jr., 90.20; James M. Walker 70.00. Burnam receives a "military preference" credit of 5.

Receipt of the above dispatch from Washington has led friends of Mr. Burnam to feel certain that his appointment as postmaster of Richmond is now but a matter of a few days. He has been one of the most active republican workers in this county in a number of years and his friends say is eminently entitled to the honors and emoluments of the office he seeks. It is understood that he has the endorsement of Senator R. P. Ernst for appointment, which is sufficient to make his "calling and election" sure.

DOGS AFTER GAS TANK THIEVES

Dumping 300 gallons of gasoline out on the ground, thieves then stole a big galvanized iron tank from the farm of Shelby Bargin near Foxtown some time Monday night.

Mr. Bargin was determined to catch the culprits if possible, so he phoned for Mullikin's bloodhounds from Lexington. Sheriff Elmer Deatherage and several deputies went out and joined Capt. Mullikin in the search.

WOMEN MAY STILL SMOKE IN NEW YORK

New York, Mar. 28.—Police Commissioner Enright today lifted the ban on smoking by women in public places as suddenly as he clamped it down last night, when he learned the anti-smoking ordinance had never passed the Board of Aldermen or been signed by Mayor Hylan. The news came like a reprieve to proprietors of fashionable smoke shops where mildness of passion for the soothing weed constitutes the chief source of bread and butter revenue. The ordinance, until today's reprieve, also had its effect on downtown cafeterias where stenographers and women clerks foregather for lunch, for the smoking evil which the ordinance was designed to check has spread to New York women in many walks of life.

Rickard Offers Alibi

New York, Mar. 28.—Evidence in the case against Tex Rickard, charged with attacking Sarah Schoenfeld, 15, was completed today and the court told the jury he hoped to give them the case late today after the attorneys had summed up. Rickard testified he was at a foot ball game at the Polo Grounds at the time when he was supposed to have met the girl.

More Women Run For Congress

Chicago, Mar. 28.—The following women are among those running for Congress this year: Mrs. Ellen Duane Davis, of Philadelphia; Mrs. Winifred Mason Hunk, of Chicago; Mrs. Mary Belle Spencer, of Hill Top, Cook county, Illinois; Mrs. Irene Cleveland Buell, of Ashland, Neb.; and Mrs. A. K. Gault, mayor of St. Peter, Minn. The latter two are sisters. The Philadelphia candidate seeking the democratic nomination, is a great great granddaughter of Benjamin Franklin, who as a boy exchanged argumentative letters with a friend defending the propriety of educating women and their fitness for education.

The Columbus A. A. base ball game against the Lexington Blue Grass team in Lexington next Sunday has been called off.

The Weather

Rain and much colder tonight; Wednesday cloudy and colder.

LUCIEN BURNAM ON JOB IN LEXINGTON

Prohibition Agent Lucien Burnam, of Richmond, and W. B. Stanfield secured grounds upon which Hays and McCarthy, owners of the Viaduct Pharmacy in Lexington and a West Main street drug store have been cited to appear before Prohibition Director Sam Collins April 10 to show cause why their permit to fill whisky prescriptions at the Viaduct Pharmacy should not be revoked. Agents Burnam and Stanfield reported a shortage of four barrels and twenty-one gallons at the Viaduct Pharmacy. The firm is charged with filling compound prescriptions for beverage purposes, failing to cancel prescriptions and filling prescriptions with no address of the patient given, prohibition officials said. The permit officials are seeking to revoke was issued after August 1, 1921, and under government regulations should run through 1922.

LEGION TO DECORATE GRAVES MEMORIAL DAY

Indianapolis, Ind., Mar. 27.—Graves of American soldiers, sailors and marines, who died in the world war, will be visited on Memorial Day by comrades in the American Legion both at home and abroad, according to plans announced today at Legion headquarters. Legion posts in every community in America will take charge of Memorial Day ceremonies and decorate the graves of all veterans, it was said. While thousands of communities throughout this country are honoring the soldier-dead in their midst, the distant graves in France, England, Italy and Russia will not be neglected.

In order to prevent confusion and duplication of effort in decorating graves in this country on Memorial Day, the Legion will ask all posts to organize a Central Grave Registration Bureau in every county for the purpose of properly recording graves of veterans of all wars and assigning such graves to the individual posts for proper decoration.

Two-Year-Old Girl Natural-Born Swimmer

Sacramento, Cal., Mar. 28.—Parents of Velva Anderson, two years old, today are considering training her for some future Olympiad. Yesterday she fell into a pond three feet deep near her home. She came to the surface, began to swim and when about halfway across the pond, the mother waded in and rescued her. The mother, a brother, and sister assert she kicked her feet, swung her arms in natural unison and propelled herself sturdily.

Ogden Stiles' Wife Sues For Divorce

Bardonia, Ky., Mar. 28.—A sequel to the sensational shooting of Mrs. Samuel Crane and Ogden W. Stiles in Mrs. Crane's apartment one night several weeks ago was a divorce suit filed today by Mrs. Stiles, whose maiden name was Lucy Hinkle. The petition, which is understood to allege adultery, was withdrawn immediately after being filed by Mrs. Stiles' attorneys, who refuse to divulge its contents. Mr. Stiles has employed counsel. The shooting which was surrounded by mystery, was believed by the authorities at the time to have been an attempt by Mrs. Crane to kill Stiles and then end her own life, but her relatives maintained that Stiles had shot her then shot himself. Both families are prominent in this community.

POOL CONTRACTS ROLL IN AGAIN

Jim Stone Tells Bright Growers of Virginia of Success of Kentucky Farmers

Lexington, Ky., Mar. 27.—Contracts of the Burley Tobacco Growers' Cooperative Association for 1922 are coming into the office of the field service department at almost the same rate now as they did during the height of the campaign last year though no organized effort is being made to obtain signatures. A total of 235 were received Saturday. The daily average for the 1921 campaign was 328 a day. Of the contracts received Saturday, 83 came from Pendleton county; 32 from Lewis; 16 from Campbell; ten from Clermont, Ohio; eight from Bullitt; seven from Boyle; six from Lincoln; six from Casey; five from Franklin and four from Henry county. The remainder came from all parts of the burley district.

Jim Stone Tells 'Em

Methods of operations of the Burley Tobacco Growers' Cooperative Association and something of the success of the first American tobacco cooperative were told the members of the executive committee of Bright Tobacco Growers' Cooperative Association, another Sapiro organization formed among the planters of Virginia, North Carolina and South Carolina, by James C. Stone, president and general manager of the Burley Association, at Richmond, Virginia, last week.

Mr. Stone was invited to attend the meeting of the executive committee of the southern organization, in order that it might profit from the experience of the Burley producers. They were encouraged by the report of Mr. Stone of one success after another following the enlisting of the business men, bankers and professional men, the warehousemen and time-tenthers of the growers of the Burley district in the organization.

The growers in the bright belt have 70,000 members now with control of 370,000,000 pounds of tobacco, Mr. Stone said, have already organized and are ready for business. Mr. Stone told the executive committee of the confidence of the bankers of the Burley district in the new system of marketing, that confidence being shown by a loan of \$5,000,000 to be used to pay advances to farmers on the delivery of their crops, and of the further agreement of the banks to loan money on the participation certificates, so that the growers would not be tempted to trade with speculators and thus lose a part of the profits they had rightfully earned themselves.

"What has been done in the Burley district has attracted the attention of the entire tobacco industry," President Stone said. "Not only are the growers of the bright belt of the South interested, but our brethren of the black patch in Kentucky and Tennessee are realizing that the only hope for the future of the tobacco industry, so far as the producer is concerned, lies in the proper merchandising of the crop. They are going to do it that way in Virginia and the Carolinas, and, judging from reports of the meetings addressed last week by Mr. Sapiro and Judge Bingham in the 'black patch', they also intend to do it there."

"These organizations, of course, will be a help also to the burley growers, and the more successful they are in enrolling the producers of their different sections, the more helpful they will be to us."

"I found the Southern planters prospect of establishing a marketing system that would mean a living and staple price for tobacco year after year. Their president is G. A. Norwood, a banker and farmer, of Goldsboro, North Carolina, and in their choice of Mr. Norwood as the head of their association the directors have been peculiarly fortunate."

For 25 years no bread has been baked in Norway on Sunday.

Mr. Long May Have To Play King Solomon

A hen out at the home of Frane Long in the country wanted to "set" the other day, and found a nest in the loft with an egg or two and started to work.

About the same time Mr. Long's old tabby cat decided to "find" some kittens, so she too, went to the loft and the hen happening to be away at the time, appropriated the nest and lo, in a short time, there were four little kittens mewling for milk.

Tabby shortly went out mousing, and while away the hen returned. The mother instinct in the chicken was strong. She wanted some babies—and didn't care what kind they were. So she proceeded to hover the kittens. Pretty soon tabby returned, but when she attempted to get to her offspring, the hen ruffled up and gave her two or three vicious pecks that drove her away.

Mr. Long is watching the contest for the babies with much interest. He may have to do the King Solomon act yet.

MADISON CONTINUES TO RESPOND NOBLY

To Aid of Stricken and Starving Jews of Europe—List of Latest Contributors

Chairman O. Olin Green, of the Jewish Relief Fund, received the following wire from State Chairman Fred Levy Tuesday afternoon:

Relief campaign on throughout state in every district is enthusiastic and reporting substantial amounts. Hope you are meeting with success in your district. Kindly let us have report as soon as possible as the national office must know results. The response from non-Jews in the state is the most encouraging part of the campaign. Do not fail us.

FRED LEVY.

Interest in the campaign in Madison county for Jewish War Relief continues from day to day and offerings are constantly coming in. Those who have not subscribed should do so at once because the campaign must be finished this week, says Chairman Green.

One interesting feature of the campaign has been the large number of voluntary contributions which have been turned in without solicitation whatever. Some people are born givers, others acquire the giving habit, and some must have giving thrust upon them. Gifts of all kinds are appreciated, but there is something beautiful about the voluntary gift. Either phone or leave your subscription with the State Bank & Trust Co., Pushkin's Fashion Shop or with the Chairman, Dr. Green.
